FIRE EVACUATION

Shelter-in-Place

Shelter-in-Place is designed to keep you safe while indoors if dangerous environmental conditions exist, such as extreme weather or a hazardous materials release.

If a Shelter-in-Place is ordered:

- If outside, seek shelter in the nearest building, preferably in an interior room with few windows.
- Allow access to others seeking shelter. Remember: a Shelter-in-Place order means there are dangerous environmental conditions but NOT any known threat of violent behavior. Allowing others into the building will not jeopardize your safety.
- Close all exterior doors, windows and any other openings to the outside.
- Avoid overcrowding by selecting several rooms if necessary.
- Monitor WPI Alert and email for further instructions.
- Report any emergency or unusual conditions to WPI Police.
- Do not leave the building until receiving the “all clear” from a police officer, WPI Alert, email or website.
